

## POSTER PRESENTATION

### < Sessions 1. Material cycling in river, lake and wetland >

**P-1-1.** An Ecosystem Model of A Storing Reservoir: How To Keep The Ecological Health of Reservoirs -----21

OMORI Koji, H. Miyasaka, S. Ito, and N. Okuda (*Ehime University*)

**P-1-2.** Water quality with rainfall in a small reservoir, Lake Wanggung -----22

HWANG Gilson, Bomchul KIM, Jae-Ok KIM and Young-Chul Kim (*Water Environment Research Center, Ansan, S. Korea, Dept. of Environmental Science, Kangwon Nat'l Univ., Dept. of Environmental Engineering, Hanseo Univ.*)

**P-1-3.** Urea Degradation by Epiphytic and Planktonic Algae in Reed Zone of Lake Biwa -----23

MITAMURA Osamu<sup>1</sup>, Junji TACHIBANA<sup>2</sup>, Kunio KONDO<sup>3</sup> and Yasushi SEIKE<sup>4</sup> (<sup>1</sup>*Shiga Prefecture University*, <sup>2</sup>*Osaka Prefectural Education Center* <sup>3</sup>*Institute of Environmental Sciences*, <sup>4</sup>*Shimane University*)

**P-1-4.** Comparison of two spectrophotometric methods of chlorophyll-*a* determination -----24

SHIN Myoung-Sun and Bomchul KIM (*Dept. of Environmental Science, Kangwon Nat'l Univ.*)

**P-1-5.** MPN of nitrifying bacteria using a culture medium modified in the brackish Lake Nakaumi, Japan -----25

SEIKE Yasushi (*Shimane University*)

**P-1-6.** Primary productivity of phytoplankton in the Nakdong River, Korea -----26

KIM Moonsook, Myoung-sun Shin, Jai-ku Kim, Bomchul Kim, and Dong-su Kong\* (*Department of Environmental Science, Kangwon National University, Chuncheon, 200-701, Korea*, \* *National Institute of Environmental Research, Korea*)

**P-1-7.** Determination of hydroxylamine in environmental water using hypochlorite followed by gas chromatography -----27

MURAKAMI Makoto (*Shimane University*)

**P-1-8.** Characteristics of DOC in streams of different land uses -----28

EUM Jae-sung, Sung-min Jung, Jae-ku Kim, Soo-yong Shim, Bom-chul Kim (*Dept. of Environmental Science, Kangwon Nat'l Univ.*)

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

**P-1-9.** Diurnal Changes of Methane and Nitrous Oxide in Lake Fukami-ike -----29  
UMEMURA M. and A. Yagi (*Nagoya Women's University*)

**P-1-10.** Arsenic behavior in a dam lake accepted stream from hot spring -----30  
KUBOKA Daisuke and Futaba KAZAMA (*Department of Ecosocial System Engineering, Graduate School of Medical and Engineering, University of Yamanashi. Takeda 4-3-11, Kofu, Japan*)

**< Sessions 2. Limnology of river ecosystem >**

**P-2-11.** Distribution pattern of aquatic insects in the upper and middle reaches of the Chikuma River in Central Japan -----36  
KIMURA Goro, Yachiyo FUKUNAGA and Kimio HIRABAYASHI (*Department of Applied Biology, Shinshu University*)

**P-2-12.** Seasonal trends of Limnological Parameters In a Lentic Ecosystem and Their Empirical Relations -----37  
AN Kwang-Guk (*School of Biosciences and Biotechnology, Chungnam National University*)

**P-2-13.** Nonpoint pollutants runoff characteristics in Okcheon ----- 38  
OH Young-Taek, Je-Chul Park, Dong-Sup Kim\*, Hye-Keun Lee\* (*School of Civil and Environmental Engineering, Kumoh National Institute of Technology* \*Korea Water Resource Corporation Water Resources Research Institute)

**P-2-14.** Seasonal variation of Attached Diatoms community in the Hantan River -----39  
KIM, Yong-Jae\* (*Daejin University*)

**P-2-15.** Role of microbial food chain during the *Stephanodiscus* bloom at the downstream Nakdong River ----- 40  
SEO Jung-Kwan<sup>1</sup>, Jay-Jung LEE<sup>1</sup>, Ik-Kyo JUNG<sup>2</sup> and Sang-Yong YANG<sup>1</sup> (<sup>1</sup>*Nakdong River Water Environment Research Laboratory, Nat'l Inst. Env. Res. Kyungpook* <sup>2</sup>*Division of Earth Environmental System, Pusan Nat'l Univ.*)

**P-2-16.** *Stephanodiscus* degrading bacterium isolated from diatom bloom at the Nakdong River -----41

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

LEE Jay-Jung, Jung-Kwan SEO and Sang-Yong YANG (*Nakdong River Water Environment Research Laboratory, Nat'l Inst. Env. Res. Kyungpook 717-870 S. Korea.*)

**P-2-17.** Distributional Patterns of Benthic Diatoms From Estuarine Sediments of Watan River (Youngkwang, Korea) -----42

CHO Hye Kyung, Myung Hwa Jung, <sup>1</sup>Man Kyu Huh, and Hak Young Lee (*Chonnam National University, Dept. of Biological Sciences, <sup>1</sup>Department of Molecular Biology*)

**P-2-18.** The fertility evaluation of Korean Inland Waters assayed by algal growth potentials -----43

SHIN Jae-Ki and Kyung-Je CHO (*Korea Institute of Water and Environment, Daejeon, 305-730, South Korea, and School of Environmental Science and Engineering, Inje University, Gimhae 621-749, South Korea*)

**P-2-19.** Phytoplankton flora and their succession in the lower parts of the Nakdong River ----44

CHO Kyung-Je (*School of Environmental Science and Engineering, Inje University, Gimhae 621-749, South Korea*)

**P-2-20.** A study on the algal growth pattern of the Sangsa lake -----45

KIM Jong Min, Yu Jeong Huh, Jong Bum Jeong, Seong Ho Ryu, Dae Yoon Shin\* (*Youngsan-River Water Environment Research Laboratory, \*Chosun University*)

**P-2-21.** Water quality and phytoplankton communities in the Dong River of Kangwon Province, Korea -----46

LEE, Jin Hwan (*Division of Natural Sciences, Sangmyung University, Seoul 110-743, Korea*)

**P-2-22.** Impact of prolonged turbidity in 2003 on the phytoplankton dynamics in the lower Nakdong River -----47

KIM M. C. and Gea Jae JOO (*Dept. of Biology, Pusan National Univ., Busan 609-735, S. Korea*)

**P-2-23.** Impact of prolonged high turbidity on the zooplankton community in 2003 at the Nakdong River, Korea ----- 48

SHIN W. G., G. H. La, M. C. Kim and Gea Jae Joo (*Dept. of Biology, Pusan National Univ., Busan 609-735, S. Korea*)

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

**P-2-24.** Evaluation of Iceharbor-type precast fishway as ecological corridor in river ----- 49  
HWANG Jong-Seo<sup>1</sup>, Kim Jae-Ok<sup>P</sup>, Hwang Gilson<sup>3</sup>, Park Sang-Hyun<sup>2</sup>, Jo Guk-Hyun<sup>2</sup>, Joh Seong-Ju<sup>4</sup> (<sup>1</sup>*Stream corridor restoration laboratory, Suwon 442-813*; <sup>P,2</sup>*Agricultural & Rural research institute, Ansan 426-170*; <sup>3</sup>*Water environmental research laboratory, Gunpo 435-040*; <sup>4</sup>*Shinkang Hi-tec. Gunpo, 435-040*)

**P-2-25.** A Comparison of Aquatic Insect Communities in Typical Mid-stream Habitats between Tropical Vietnamese and Temperate Korean Streams -----50  
BAE Yeon Jae, Duc Huy HOANG and Jong Wook LEE<sup>1</sup> (*Department of Biology, Seoul Women's University, Seoul 139-774, Korea, 1Department of Biology, Yeungnam University, Gyeongsan 712-749, Korea*)

**P-2-26.** Investigation of pollution state to consider water quality improvement plan of small urban streams in Gyeonggi Province area -----51  
SHIN, Dong-Hwan , Park, Jae-Young, Oh, Jong-Min (*Dept. of Environmental Science and Engineering, Kyung Hee University, Yong In, Kyung Gi 449-701, S. KOREA*)

**P-2-27.** Dynamics of Water Parameters and Phytoplankton in Tapjung Reservoir, Nonsan City - -----52  
KOOK Youn-Hee \* and In-Hye Oh (*Dept. of Biology and Medicinal Science, PaiChai University, Daejeon 302-735, Korea*)

**P-2-28.** Correlation between phytoplankton dynamics and water quality in Paldang reservoir---- -----53  
KIM Jong min<sup>1\*</sup>, Myung-Soo Han<sup>2</sup>, Weonhwa Jheong<sup>1</sup> (<sup>1</sup>*National Institute of Environmental Research, Kyeongseo-dong, Seo-gu Incheon, 404-170, Korea, 2Department of Life Science, Hanyang Univ. Seoul 133-791, Korea*)

**P-2-29.** Correlation between phytoplankton dynamics and water quality in Daecheong reservoir----- 54  
KIM Jongmin<sup>1\*</sup>, Myung-Soo Han<sup>2</sup>, Se-uk Cheon<sup>1</sup> (<sup>1</sup>*National Institute of Environmental Research, Kyeongseo-dong, Seo-gu Incheon, 404-170, Korea, 2Department of Life Science, Hanyang Univ. Seoul 133-791, Korea*)

.....

**< Sessions 3. Long-term ecological research and monitoring in freshwater ecosystem >**

**P-3-30.** Toward applying monitoring data to interdisciplinary studies - an example in a RIHN research project-----62  
SEKINO Tatsuki, Takahito Yoshioka (*Research Institute for Humanity and Nature, Japan*)

**P-3-31.** Effects of Rainfalls on the Seasonal Dynamics of Phytoplankton Community in Pal'tang riverine, Korea-----63  
KIM Bo-Ra, Baik-Ho KIM and Myung-Soo HAN (*Department of Life Science, Hanyang University*)

**P-3-32.** Diagrammatic arrangement method for presenting monitoring data-----64  
SEKINO Tatsuki, Takahito Yoshioka (*Research Institute for Humanity and Nature, Japan*)

**P-3-33.** Annual variation of environmental factors and phytoplankton in the lower part of the Han river, Korea-----65  
SUH Mi-Yeon<sup>1,2</sup>, Kim Kwang Jin<sup>1</sup>, Bae Kyung-Seok<sup>1</sup> and Han Myung-Soo<sup>2</sup> (<sup>1</sup>*Seoul Metropolitan Government Research Institute of Public Health and Environment, Seoul 137-734, Korea*  
<sup>2</sup>*Department of Environmental Science, Hanyang University*)

**P-3-34.** Influence of diversion of river flow on intake and drainage river in Kanagawa Prefecture-----66  
HARA Midori (*Rissho University*)

**P-3-35.** The effects of storm runoff and the modeling of phosphorus cycle in Lake Soyang using a 2-D hydrodynamic water quality model [CE-QUAL-W2]-----67  
KIM Yoonhee and Bomchul Kim (*Dept. of Environmental Science, Kangwon National University, Chunchon*)

**P-3-36.** Water balance in the Obasute Rice Terrace, Chikuma City, Nagano Prefecture-----68  
MURAKAMI Toshinobu (*Department of Geo-environmental science, Rissho University*)

**P-3-37.** Computational patterning of movement behavior of medaka (*Oryzias latipes*) in response to the treatments of toxic substances at low concentrations-----69

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

JI Chang-Woo <sup>1</sup>, Kyung-Hee CHOI<sup>1</sup>, Sang-Hee LEE<sup>2</sup>, Sang-Gul LEE<sup>3</sup>, Eui Young CHA<sup>3</sup> and Tae-Soo CHON<sup>1\*</sup> (<sup>1</sup>*Div. of Biological Sci. Pusan Nat'l Univ. Busan 609-735 S. Korea*, <sup>2</sup>*Dept. of Physics, Pusan Nat'l Univ. Busan 609-735 S. Korea*, <sup>3</sup>*Dept. of Computer Eng. Pusan Nat'l Univ. Busan 609-735 S. Korea*)

**P-3-38.** Long-term dynamics of Zooplankton in Lake Soyang-----70  
KIM Jai-Ku, Bomchul KIM, Young-Gun KIM and Kyo-Song CHO (*Department of Environmental Science, Kangwon National University*)

**P-3-39.** Hydrological and Environmental Characteristics of the River-type Reservoir (Paltang), Korea-----71  
SHIN Jae-Ki<sup>1\*</sup>, Chang-Keun KANG<sup>2</sup> and Soon-Jin HWANG<sup>3</sup> (<sup>1</sup>*Korea Institute of Water and Environment, Korea Water Resources Corporation (KOWACO), Taejon 305-730, Korea*, <sup>2</sup>*Department of Biology, Pusan University, Pusan 609-735, Korea*, <sup>3</sup>*Department of Environmental Science, Konkuk University, Seoul 143-701, Korea*)

**P-3-40.** Turbidity variation and particle distribution in a large river-type reservoir, Korea-----72  
SHIN Jae-Ki<sup>1\*</sup>, Soon-Jin HWANG<sup>2</sup> and Chang-Keun KANG<sup>3</sup> (<sup>1</sup>*Korea Institute of Water and Environment, Korea Water Resources Corporation (KOWACO), Taejon 305-730, Korea*, <sup>2</sup>*Department of Environmental Science, Konkuk University, Seoul 143-701, Korea*, <sup>3</sup>*Department of Biology, Pusan University, Pusan 609-735, Korea*)

**P-3-41.** Long term change of phytoplankton community in Lake Soyang, Korea.-----73  
LEE Eun Joo<sup>1</sup>, Bomchul KIM<sup>2</sup>, and Kyu-Song Cho<sup>1</sup> (<sup>1</sup>*Department of Biology*, <sup>2</sup>*Department of Environmental Science, Kangwon University*)

**P-3-42.** Study of Trophic Level in Daecheong Reservoir from 1997 to 2002-----74  
PARK Jong-Geun, Joo-Lae CHO, Yeoun-Suk KIM and Jung Ho LEE<sup>1</sup> (*International Drinking Water Center, KIWE, KOWACO, Daejeon 306-711*, <sup>1</sup>*Department of Biology Education, Daegu University, Gyeongbuk 712-714*)

**< Sessions 4. Population and community dynamics and modeling >**

**P-4-43.** Modeling the variation in phytoplankton population in a embayment affected by periodic intrusions of outer water-----81

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

HAYAMI Yuichi<sup>1</sup>, Shu Ougiyama<sup>2</sup>, Tsuneyoshi Koizumi<sup>3</sup> and Hidetaka Takeoka<sup>3</sup> (<sup>1</sup>*Faculty of Engineering, Ehime Univ.* <sup>2</sup>*Graduate School of Science and Engineering, Ehime Univ.* <sup>3</sup>*Center for Marine Environmental Studies, Ehime Univ.*)

**P-4-44.** Phytoplankton and their dynamic periodicity in the hypertrophic and shallow river (Seonakdong River) -----82  
CHO Kyung-Je and Ok-Hee LEE (*School of Environmental Science and Engineering, Nakdong River Environmental Research Center, Inje University, Gimhae 621-749, South Korea*)

**P-4-45.** Development of filamentous green algal community in the littoral zone of Lake Biwa: a mini review-----83  
NOZAKI Kentaro (*School of Human Sciences, Sugiyama Jogakuen University*)

**P-4-46.** Molecular analysis of large-subunit ribosomal RNA gene of *Peridinium bipes* (Dinophyceae) clones isolated from three different geographic regions of Korea-----84  
KI Jang-Seu \*, Soo-Yeun Cho, Myung-Soo Han (*Department of Life Science, College of Natural Sciences, Hanyang University, National Research Laboratory for Water Environmental Ecology & Restoration*)

**P-4-47.** Vertical migration and horizontal distributions of *Chaoborus* larvae in Lake Fukami-ike-----85  
NAGANO Mariko <sup>1</sup>, Masaaki TANAKA<sup>2</sup>, Akihiko YAGI<sup>1</sup> (<sup>1</sup>*Graduate School of Life Science, Nagoya Women's Univ. 3-40, Shiozi-cho, Mizuhoku Nagoya-shi, Japan,* <sup>2</sup>*Yokkaichi Univ. 1200, Kayou-cho, Yokkaichi-shi, Japan*)

**P-4-48.** Bloom of *Peridinium bipes* (Dinophyceae) in mesotrophic Reservoir Juam, Korea----86  
CHOI Ji-Young<sup>1</sup>, Myung-Hwan Park<sup>2</sup>, Soo-Yeon Cho<sup>1</sup>, Bo-Ra Kim<sup>1</sup>, Chun-Ju Ko<sup>3</sup>, Baik-Ho Kim<sup>1</sup> and Myung-Soo Han<sup>1,2</sup> (<sup>1</sup>*Department of Life Science, Hanyang University,* <sup>2</sup>*Department of Environmental Science, Hanyang University,* <sup>3</sup>*JuamDan Office 212-1 Yonggye-ri Sangsa-myeon Suncheon-si Jeollanna-do Seoul 540-860 KOREA*)

**P-4-49.** Development and application of the ecological modeling in brackish Lake Obuchi, Japan-----87  
UEDA, S.<sup>1</sup>, Kondo, K.<sup>1</sup>, Inaba, J., Hosoda, M.<sup>2</sup>, Kutsukake, H.<sup>2</sup> Seike, Y. <sup>3</sup> and Nakata, K.<sup>4</sup> (<sup>1</sup>*Department of Radioecology, Institute for Environmental Sciences,* <sup>2</sup>*Water Environmental Analysis section, Metocean Environmental Inc.* <sup>3</sup>*Shimane Univ.* <sup>4</sup>*Department of Geo-*

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

*Environmental Technology, Tokai University)*

**P-4-50.** Population dynamics of predator (*Asplanchna* spp.) and its impact on herbivorous rotifers community in three tributaries of the Nakdong River (S. Korea) -----88  
<sup>1</sup>KIM Hyun-Woo, <sup>2</sup>Myung-Chul KIM, <sup>2</sup>Kwang-Seuck JEONG and <sup>2</sup>Gea-Jae JOO (<sup>1</sup>*Dept. of Environmental Education, Suncheon Nat'l Univ., Suncheon 540-742, S. Korea* <sup>2</sup>*Dept. of Biology, Pusan Nat'l Univ., Busan 609-735, S. Korea*)

**P-4-51.** A study on the algal growth-related water quality of the Dongbok lake-----89  
KIM Jong Min, Hyun Ku Kim, Yu Jeong Huh, Jong Bum Jeong (*Yongsan-River Water Environment Research Laboratory*)

**P-4-52.** A study on the algal growth-related water quality of the Sangsa lake-----90  
KIM Jong Min, Jong Chun Lee, Nam Ik Chang, Seong Ho Ryu, Dae Yoon Shin\* (*Yongsan-River Water Environment Research Laboratory, \*Chosun University*)

**P-4-53.** Seasonal variation of phytoplankton community in the Hoidong Reservoir-----91  
LEE You-Jung <sup>1,2\*</sup>, Jong-Mun Jung<sup>1,2</sup>, Hong-Ki Park<sup>2</sup>, Ki-Won Kyun<sup>2</sup>, Gea-Jae Joo<sup>1</sup>  
<sup>1</sup>Dept. of Biology, Pusan National Univ., Jang-Jeon Dong, Gum-Jeong Gu, Busan, S. Korea, 609-735 <sup>2</sup>Busan Water Quality Institute, Busan Waterworks HQ, S. Korea, 621-813

**P-4-54.** Colonization and succession of epilithic diatom on artificial substrata with a special reference on usefulness of the assessment of water quality using diatoms-----92  
JANG Sung Hyun and Jung Ho Lee  
Department of Biology Education, Daegu University, Korea

**P-4-55.** Seasonal Variation of Periphyton Communities in the Upstreams of the Dam of Peace, Korea-----93  
CHOI Hwan-Seok, Choi Min-Kyu, Baik-Ho Kim<sup>1</sup>  
Institute for Environmental Science, Wonkwang University, Iksan 570-749, Korea,  
<sup>1</sup>Department of Life science, Hanyang University, Seoul 133-791, Korea

**P-4-56.** Variations of Epilithic Diatom Community and an Assessment of Water Quality by using DAipo In the Water System of Ulleung Island-----94  
CHOI, Jae sin, Jung Won Park, Kyung Lak Lee and Han Soon Kim  
Department of Biology, Kyungpook National University, Daegu 702-701, Korea

.....

**P-4-57.** Vertical distributions of phytoplankton along a transect from the estuary to the offshore in Barguzin Bay, Lake Baikal-----95

KATANO Toshiya <sup>1</sup>, Shin-ichi Nakano<sup>2</sup>, Hiroyuki Ueno<sup>2</sup>, Osamu Mitamura<sup>3</sup>, Kaori Anbutsu<sup>3</sup>, Masaki, Kihira<sup>3</sup>, Yasuhiro Satoh<sup>4</sup>, Valentin Drucker<sup>5</sup>, Masahito Sugiyama<sup>6</sup>

<sup>1</sup> Center for Marine Environmental Studies, Ehime University, Bunkyo-cho 3, Matsuyama, 790-8577, Japan; <sup>2</sup> Faculty of Agriculture, Ehime University, 3-5-7 Tarumi, Matsuyama, 790-8566, Japan; <sup>3</sup> School of Environmental Science, University of Shiga Prefecture, 3165 Hassaka, Hikone, Shiga 522-0057, Japan; <sup>4</sup> Faculty of Science, Yamagata University, Koshirokawa-cho 1-4-12, Yamagata 990-8560, Yamagata, Japan; <sup>5</sup> Limnological Institute, Siberian Branch of Academy of Sciences, Ulan-Botorskaya, Irkutsk, Russia, <sup>6</sup> Faculty of Integrated Human Studies, Kyoto University, Yoshida-Nihonmatsu-cho, Sakyo-ku, Kyoto, 606-8501, Japan.

#### < Sessions 5. Restoration of aquatic ecosystem >

**P-5-58.** Impact of bank protection work on occurring *Stenopsyche marmorata*, in spring, in the middle reaches of the Chikuma River in Central Japan-----102

FUKUNAGA Yachiyo, Goro KIMURA, Masaaki TAKEDA and Kimio HIRABAYASHI  
Department of Applied Biology, Faculty of Textile Science and Technology, Shinshu University,

**P-5-59.** The properties of Ecology concrete blocks using recycled aggregate for improving water qualities-----103

MOON Chung-Geu, YOH Muneoki, CHOI I-Song\* and Jong-Min OH\*  
Dept. of Sciences of Resources and Environment, Tokyo University of Agriculture and Technology, \*Dept. of Environmental Science and Engineering, Kyung Hee University

**P-5-60.** Algicidal activity of the *Stephanodiscus hantzschii* killing bacterium HYK0210-SK09 and the potential of biological control agent\*-----104

KIM, Hyo-Ree<sup>1</sup>, Yoon-Ho KANG<sup>2</sup>, Baik-Ho KIM<sup>1</sup> and Myung-Soo HAN<sup>1,2</sup>  
<sup>1</sup>Department of Life Science, <sup>2</sup>Department of Environmental Science, Hanyang University, Seoul 133-791, Korea

**P-5-61.** Performance of contact oxidation process using recycled aggregate porous concrete (RAPC) for water purification-----105

MOON Chung-Geu, YOH Muneoki, CHOI I-Song\* and Jong-Min OH\*

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

Dept. of Sciences of Resources and Environment, Tokyo University of Agriculture and Technology, \*Dept. of Environmental Science and Engineering, Kyung Hee University

**P-5-62.** Analysis of Eutrophication based on Chlorophyll-*a*, Depth and Limnological Characteristics in Korean Reservoirs-----106  
KIM HO-SUB, HWANG SOON-JIN

Department of Biological Systems Engineering, Konkuk University, Seoul 143-701, Korea

**P-5-63.** Biogeochemical pollutants drained from highway pavement road-----107  
TAKEMURA Shinsaku, Naoshige GOTO and Osamu MITAMURA

Limnological Laboratory, School of Environmental Science, University of Shiga Prefecture,

**P-5-64.** Purification Properties of Artificial Wetland System by Hydraulic Retention Time---108  
NAM, Gui-Sook·Yo-Sop Pae·Hyung-Joong Kim·Gwang-Sik Lee·Kyung-Sup Yoon·<sup>1</sup>Sang-Joon Lee

Rural Research Institute, KARICO <sup>1</sup>Dept. of Microbiology, Pusan National Univ., Busan 609-735

**P-5-65.** Study of ecological characteristics of surfgrass, *Phyllospadix japonicus* for habitat restoration-----109

PARK Jung-Im, Young-Kyun Kim, Sang Rul Park, Jeong Bae Kim<sup>1</sup>, Kun-Seop Lee

Department of Biology, Pusan National University, Pusan 609-735, Republic of Korea

<sup>1</sup>National Fisheries Research Development Institute, 347, Anpo-ri, Hwayang-myun, Yeosu City, Jeonnam Province

**P-5-66.** Water quality trends after the sewage treatment plant operations in the lower region of the Nakdong River-----110

LEE, Ok-Hee. and Kyung-Je CHO

Nakdong River Environmental Research Center, and School of Environmental Science and Engineering, Inje University, Gimhae 621-749, South Korea

**P-5-67.** Potential in the application of algicidal bacterium *Pseudomonas* sp. HYK0210-SK09 to control centric diatom *Stephanodiscus hantzschii*, in mesocosm experiments in the Han River, Korea-----111

JUNG Seung -Won, Jong-Kun. SEO, Soo-Min CHOI, Baik-Ho KIM and Myung-Soo HAN

Department of Life Science, Hanyang University, Seoul 133-791, Korea

.....

< Sessions 6. Microbial ecology >

**P-6-68.** Effect of irradiance on diel changes in the surface distributions of dinoflagellate *Peridinium cunningtonii* and euglenoid *Trachelomonas hispida* in a small pond-----119  
YAMAMOTO Yoshimasa and Hiroyuki NAKAHARA

Dept. of Applied Biosciences, Kyoto Univ., Kyoto 606-8502, Japan

**P-6-69.** Observation of aquatic bacteria by CARD-FISH method-----120  
JEON Sun-Ok, Nam-Hui JEON and Tae-Seok AHN

Dept. of Environmental Science, Kangwon Nat'l Univ. Chunchon 200-701, Korea

**P-6-70.** Horizontal distribution and seasonal change of picophytoplankton in surface water of Lake Biwa-----121  
KIHIRA Masaki, Naoshige GOTO and Osamu MITAMURA

Limnological Laboratory, School of Environmental Science, University of Shiga Prefecture,

**P-6-71.** Depth profile of community structure of aggregated and free living bacteria in Lake Baikal-----122  
JEON Nam-Hui, Sun-Ok JEON, Tae-Seok AHN, L.P. SPIGLAZOV, V.V. DRUCKER, V.V. PARFENOVA

1Dept. of Environmental Science, Kangwon Nat'l Univ. ChunChon 200-701, Korea, 2L.P. Spiglazov, V.V. Drucker, I.A. Tyorkina, V.V. Parfenova, Limnological Institute, Siberian Branch, Russian Academy of Science, Irkutsk, 664033, Russia

**P-6-72.** *Bacillus* from sediment of Lake Baikal as evidence of paleoclimate change-----123  
AHN, Tae-Seok, Eun Young Seo, Mi Ree Kim, Ju Young Kim, and Valentina V. Parfenova<sup>1</sup>  
Dept. of Environmental Science, Kangwon Nat'l Univ. ChunChon 200-701, Korea,  
<sup>1</sup>Limnological Institute, Siberian Branch, Russian Academy of Science, Irkutsk, 664033, Russia

**P-6-73.** Identification of Psychrophilic Bacteria by 16S rDNA Analysis isolated in Lake Baikal-----124  
BAE, Myoung-sook\*, Sunk-Hwan Park, Hong-Gyu Song<sup>1</sup>, and Tae-Seok Ahn<sup>2</sup>, Geon-Hyoung Lee

Dept. of Biology, College of Natural sciences, Kunsan National University, <sup>1</sup>Dept. of

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

Microbiology, <sup>2</sup>Dept. of Environmental Science, College of Natural sciences, Kangwon National University

**P-6-74.** Identification of Oligotrophic Bacteria by 16S rDNA Analysis isolated in Lake Baikal-----125

BAE, Myoung-sook\*, Sunk-Hwan Park, Hong-Gyu Song <sup>1</sup>, and Tae-Seok Ahn <sup>2</sup>, Geon-Hyoung Lee

Dept. of Biology, College of Natural sciences, Kunsan National University, <sup>1</sup>Dept. of Microbiology, <sup>2</sup>Dept. of Environmental Science, College of Natural sciences, Kangwon National University

**< Sessions 7. Ecosystem Health, Toxicity, Fish, Other topics >**

**P-7-75.** Morphological responses of *Bosmina* against kairomones from invertebrate predators, and impact of the insecticide carbaryl on them-----138

SAKAMOTO Masaki and Takayuki HANAZATO

Research and Education Center for Inlandwater Environment, Shinshu Univ.

**P-7-76.** Evaluation of PCR primers for the detection of microcystin-producing cyanobacteria-----139

LEE Hyun-Kyung <sup>1</sup>, Hye-Ryoung Kim<sup>1</sup>, Soon-Ae Yoo<sup>2</sup>, Tae-Seok Ahn<sup>3</sup>, Chi-Kyung Kim<sup>1</sup>, and Dong-Hun Lee<sup>1</sup>

<sup>1</sup>Department of Microbiology and Biotechnology Research Institute, Chungbuk National University, Cheongju 361-763, Korea <sup>2</sup>Department of Biology, Paichai University, Daejeon 302-735, Korea <sup>3</sup>Department of Environmental Sciences, Kangwon National University, Chunchon 200-701, Korea

**P-7-77.** Avoiding Behavior of *Daphnia magna* in Response to the Treatments of an Insecticide at Low Concentrations-----140

CHO Hyun Duk <sup>1</sup>, Sang- Hee LEE<sup>2</sup>, Kyung-Hee CHOI<sup>1</sup>, and Tae-Soo CHON<sup>1\*</sup>

<sup>1</sup>Div. of Biological Sci., Pusan Nat'l Univ. Busan 609-735 S. Korea, <sup>2</sup>Dept. of Physics, Pusan Nat'l Univ. Busan 609-735 S. Korea.

**P-7-78.** Studies on the annual changes of water quality in the lower Han River-----141

CHO Seog -ju, Jong-chul YOON, Eui-grun JEONG, Chong-hynn LEE, Sang-yeoul LEE,

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

Lin-tae KIM, Kyung-seok BAE, Jung-sik SHIN

Seoul Metropolitan Gov. Institute of Pubic Health and Environment, Seoul 137-130, Korea

**P-7-79.** The relation between egg incubation period and their habitat in several species of Plecoptera-----142

YOSHIMURA Mayumi

Forest Conservation and Management Group, Shikoku Research Center, Forestry and Forest Products Research Institute

**P-7-80.** Nesting Behavior of Chironomid Populations in Interaction with Different Size of Sands-----143

LEE Sang- Hee<sup>1</sup>, Hyun Duk CHO<sup>2</sup>, Kyung-Hee CHOI<sup>2</sup>, and Tae-Soo CHON<sup>2\*</sup>

<sup>1</sup>Dept. of Physics, Pusan Nat'l Univ. Busan 609-735 S. Korea. <sup>2</sup>Div. of Biological Sci., Pusan Nat'l Univ. Busan 609-735 S. Korea

**P-7-81.** A geographical study on water environmental changes in the urban rivers in Tokyo, Japan-----144

TOMOMASA Taniguchi

Dept. of Geography, Rissho University

**P-7-82.** The effect of Sediment Dredging using Vacuum Suction System-----145

KIM Kyung-Man<sup>1</sup>, Eve Kim<sup>1</sup>, Jae-Man Ko<sup>2</sup>

RRI, KARICO<sup>1</sup>, Chung Ho E&C Co., Ltd<sup>2</sup>

**P-7-83.** Organic matter contents and distribution of Sediments in Agricultural Reservoirs----146

KIM Eve, Kyung-Man Kim, Byeong-Deok Hong , Yeoul An

RRI, KARICO (Rural Research Institute, Korea Agricultural and Rural Infrastructure Corporation)

**P-7-84.** On the night phosphorus uptake observed in a continuous culture system of *Melosira varians*-----147

OTA Hokuto\*, NAKAZAWA Junpei, SAKAI Norihiro, KATO Hiromi, HIRABYASHI Kimio, TAKEDA Masaaki, KANAMORI Wataru and NAKAMOTO Nobutada

Dept. Applied Biology, Shinshu Univ.,

**P-7-85.** Annual N acquisition of *Zostera marina* in the south coast of Korean peninsula-----148

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

PARK Sang Rul, Jung-Im Park, Young kyun Kim, You Won Lee, Young Sang Kim and Kun-Seop Lee

Department of Biology, Pusan National University 30 Changjun-dong, Pusan 609-735, Korea

**P-7-86.** High frequency streamwater monitoring in a nitrogen saturated catchment near Tokyo City, Japan-----149

FUJITA Toshitada and YOH Muneoki

Fac. of Agriculture, Tokyo university of Agriculture and Technology

**P-7-87.** Freshwater Environment and Periphyton Biomass in the Tok Island, Korea-----150  
SHIN Jae-Ki<sup>1\*</sup>, Mi-Kyung KIM<sup>2</sup>, Chang-Keun KANG<sup>3</sup> and Soon-Jin HWANG<sup>4</sup>

<sup>1</sup>Korea Institute of Water and Environment, Korea Water Resources Corporation (KOWACO), Taejon 305-730, Korea, <sup>2</sup>Marine Science Research Center, Yungnam University, Kyongsan 719-749, Korea, <sup>3</sup>Department of Biology, Pusan University, Pusan 609-735, Korea, <sup>4</sup>Department of Environmental Science, Konkuk University, Seoul 143-701, Korea

**P-7-88.** Succession of dominant phytoplankton in a reservoir and its inflowing streams-----151  
KANZAKI Naoto and Shin-ichi NAKANO

LAFWEDY, Faculty of Agriculture, Ehime University

**P-7-89.** Morphological and growth responses of the seagrass, *Zostera marina* to *in situ* light reduction-----152

KIM Young Kyun, Sang Rul Park, You-Won Lee, Jung-Im Park, Kun-Seop Lee

Department of Biology, Pusan National University, 30 Changjun-dong, Pusan, 609-735, Korea

**P-7-90.** Abnormal annual changes in water temperature of springs in a foothill, Okayama----153  
ANDO Mie, Hiromi Higashiyama, Hideyuki Ishii, Takeshi Hirakawa, Kazuhiro Yamaguchi, and Koichi Kitaoka

Dep. Applied Science, Fac. Science, Okayama Univ. of Science

**P-7-91.** Morphological Abnormality and Developoment Retardation Exposure to EDCs on Larval in Freshwater Chironomids-----154

KWAK, Inn-Sil and Wonchoel Lee

Department of Life Science, Hanyang University

**P-7-92.** Detection and enumeration of cultured heterotrophic nanoflagellates using a flow

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

cytometer-----155

ASAUMI Rie, Toshiya Katano and Shin-ichi Nakano  
LAFWEDY, Faculty of Agriculture, Ehime University

**P-7-93.** A Study on the Conversion Indicator of Organic Pollutant for Wastewater Effluent ( )  
LIM Byungjin, Osang Kwon and Yeontaek Rhim-----156  
National Institute of Environmental Research

**P-7-94.** Pre-Treatment of Slow Sand Filtration to Reduce the Turbid Matter by Use of Food Chain in the Tropical Region-----157  
KATO Hiromi and NAKAMOTO Nobutada  
Dept. of Applied Biology, Shinshu University,

**P-7-95.** Brackish Lakes in Shinpo District, North Korea. III. Fish-----158  
GIL, Joon-Woo, Young-Pyo Hong<sup>1</sup>, Joon-Ho Park<sup>2</sup> and Saywa Kim<sup>2</sup>  
Korea Electric Power Research Institute, National Science Museum<sup>1</sup> and Yong-In University<sup>2</sup>

**P-7-96.** Review of 2-year experimental data from water quality improvement of inflow stream in estuary using wetland-----159  
KOO won seok  
Konkuk university

**P-7-97.** Feasibility study of pond systems for sewage treatment and agricultural reuse-----160  
JANG Jae-Ho, Chun-Gyeong Yoon and Kwang-Wook Jung  
Konkuk university

**P-7-98.** Analysis of indicator microorganism concentration in the rice cultural plot after reclaimed water irrigation-----161  
JUNG Kwang-Wook, Chun-Gyeong Yoon, Je-Ho Jang, Won-Seok Koo  
Department of Rural Engineering, Konkuk University, Seoul, 143-701, Korea

**P-7-99.** Differentiation between Kerosene and JP-8 of Spilled Oil by the Pattern of Alkyl PAH--  
-----162  
BAE Il-Sang<sup>1</sup>, Ho-Sang shin<sup>1\*</sup>, Kweon Jung<sup>1</sup>, Yeon-Soo Lee<sup>1</sup>, Jae-Young Lee<sup>1\*\*</sup>

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

---

<sup>1</sup>Seoul Metropolitan Govern Research Institute of Public Health and Environment, <sup>1\*</sup> Dept. of Environmental Science, Kongju National University, <sup>1\*\*</sup>Division of Environmental Engineering University of Seoul

**P-7-100.** The distribution and the seasonal variation of sediment in the reservoir and the stream of the Nakdong river system. -----163

CHOI Youngsoon and Bomchul KIM

Dept. of Environmental science, Kangwon Nat'l Uni. Chunchon 200-701, S. Korea

**P-7-101.** Incorporation of Satellite Image into an Eco-Hydrological Model to Analyze Carbon and Water Processes in the Gwangneung Experimental Forest, Korea-----164

HWANG Tae-hee<sup>1</sup>, Sin-kyu KANG<sup>2</sup>, Ji-yeon KIM<sup>1</sup>, Do-won LEE<sup>1</sup>

<sup>1</sup>Graduate School of Environmental Studies, Seoul Nat'l University, Seoul 151-742, Republic of Korea <sup>2</sup>Department of Environmental Science, Kangwon Nat'l University, Chuchon 200-701, Republic of Korea

**P-7-102.** A Study of Runoff and Nonpoint Source Pollutant Loads in Urban and Non-urban Watershed at Ansan by SWMM-----166

KIM Yuri, Taehee Hwang and Jung-wk Kim

Graduate School of Environmental Studies, Seoul Nat'l Univ. S. Korea

**P-7-103.** Phytoplankton Community Dynamics in the Birth Stage of a Large Reclaimed Estuarine Lake in Korea (Lake Hwaong) -----167

CHUNG, Mi-Hee, Ho-Sub Kim, Chung-Il Choi<sup>1</sup>, and Soon-Jin Hwang

Department of Environmental Science, Konkuk University, Seoul 143-701, Korea, <sup>1</sup>Department of Earth and Marine Sciences, Hanyang University, Ansan, 426-791, Korea

**P-7-104.** Community Patterns of Benthic Macro-Invertebrates and Water Quality Indices in the streams in Gyeong-Gi Providence-----168

PARK Ji Eun<sup>1</sup>, Hyun-Duk CHO<sup>1</sup>, In-Sil KWAK<sup>2</sup> Ki-Hyun KIM<sup>1</sup> and Tae-Soo Chon<sup>1\*</sup>

<sup>1</sup>Div. of Biological Sciences, Pusan Nat'l Univ. Busan 609-735, S. Korea, <sup>2</sup>Dept. of Life Sciences, Hanyang Univ. Seoul 133-791, S. Korea

**P-7-105.** Palynological Studies of *Potamogeton* (Potamogetonaceae) -----169

KIM, Hojoon

.....

**THE 1<sup>st</sup> KOREA JAPAN JOINT LIMNOLOGY SYMPOSIUM**  
*Material Cycling and Long-term Ecological Research in Freshwater Ecosystems*

<sup>1</sup>Korea Institute of Water and Environment, Korea Water Resources Corporation (KOWACO),  
Taejon 305-730, Korea

**P-7-106.** Nesting Behavior of Chironomid Populations in Interaction with Different Size of  
Sands-----170

LEE Sang- Hee<sup>1</sup>, Hyun Duk CHO<sup>2</sup>, Kyung-Hee CHOI<sup>2</sup>, and Tae-Soo CHON<sup>2\*</sup>

<sup>1</sup>Dept. of Physics, Pusan Nat'l Univ. Busan 609-735 S. Korea. <sup>2</sup>Div. of Biological Sci., Pusan  
Nat'l Univ. Busan 609-735 S. Korea

**P-7-107.** Influence of rainfall on phytoplankton community in Daechung reservoir-----171

JOUNG Seung-Hyun, Chi-Yong Ahn, Aeran Choi, and Hee-Mock Oh

Environmental Biotechnology Laboratory, Korea Research Institute of Bioscience and  
Biotechnology

**P-7-108.** Studies on early detection for cyanobacterial bloom-----172

SON Moonho and Jin Ae Lee

School of Environmental Science and Engineering Inje university

**P-7-109.** Dissolved Organic Matters Characteristics in Freshwater -----173

PARK, Je-Chul, Young-Taek Oh, Sang-Deuk Bae, Dong-Kyeong Ryu

School of Civil and Environmental Engineering, Kumoh National Institute of Technology

**P-7-110.** The impact of forest fire and typhoon on the fish fauna in the mountain streams in the  
northeastern part of S. Korea-----174

CHO Ga Ik, Gu Yeon Kim, Chan Woo Lee, Ju Duk Yoon and Gea Jae Joo

Dept. of Biology, Pusan National Univ., Busan 609-735, S. Korea

**P-7-111.** Daily variation of phytoplankton and water quality in lower Nakdong River (Mulgum,  
2002-2003) -----175

LEE You-Jung<sup>1,2\*</sup>, Jong-Mun Jung<sup>1,2</sup>, Eun-Young Jung<sup>2</sup>, Pan-Se Shin<sup>2</sup>, Gea-Jae Joo<sup>1</sup>

<sup>1</sup>Dept. of Biology, Pusan National Univ., Jang-Jeon Dong, Gum-Jeong Gu, Busan, S. Korea,  
609-735 <sup>2</sup>Busan Water Quality Institute, Busan Waterworks HQ, S. Korea, 621-813

**P-7-112.** Changes in microcystin content and environmental parameters over the course of a  
toxic cyanobacteria bloom in a hypertrophic regulated river, South Korea-----176

.....
